

COVID 2020 Statement

PXI is dedicated to the health and safety of all applicants. We are working closely with Scantron to ensure sites will be available, safe and following CDC guidelines. We are confident they will meet the needs of candidates and plan to move forward with the October 2020 testing window for the CPXP exam. To further ensure the safety of our candidates, we have added a new testing option - LIVE ONLINE PROCTORING (LOP). You can find more information in the [CPXP Handbook](#).

The deadline to apply for the October 2020 testing window has been extended to August 29, 2020. Please email info@pxinstitute.org with any questions.
